

Student Union
Boise State University

The new Student Union addition features a sunny galleria where **Linn® Series** seating forms small lounge areas, perfect for staff and students' informal meetings or reading. Offices, the bookstore, an upscale dining center, ballrooms, billiards, bowling and special activities make this a busy center for students and visitors. Linn® Series chairs, sofas and tables fit a variety of smaller lounge and waiting areas.

Above: South entry of the Student Union addition, designed by Lombard-Conrad Architects

Left: Rich burl wood patterns all the way through solid surface Mystera® arm caps and table tops are smooth and durable. Crypton® finished fabrics add warm color, wipe clean.

Right: Benches in a coordinating fabric fit in more casual seating—flexible and economical.

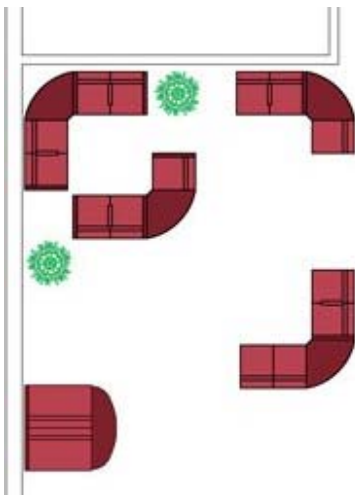

Student Union Boise State University

Linn® Series chairs, sofas and tables make comfortable seating groups for many spaces and uses. Separate seating groups yield individual areas for study breaks. Combined seating groups create social areas for many students by the billiard tables and bowling alley.

Linn Series' upholstery covers are quick to wipe clean crypton, and replaceable on site.

Mystera® solid surface burlwood design gives an elegant finish to table tops and arms, completing the entry lounge's warm welcome.

Facilities gains flexibility using these basic seating units and tables to create lounge areas throughout the building. As needs change or for special events, they can be rearranged in many ways, a few shown in floor plans to the left.

Benches form small groups of casual seating outside of the ballroom and along hallways on the second floor.
