

### Country Day School Cincinnati, Ohio

Bright open spaces welcome students to the Cincinnati Country Day School. Chairs and tables from the Lacara Series complement the architecture, with open flowing lines and small groups, offering a variety of social and study areas.

Left above / left below: Chair segments echo the changing planes of the Alumni Lounge over the atrium stairs and a lower hallway.

Above: A quiet study area of chair and corner sections defining a lower level lounge.

Lacara Series inward and outward chair segments create a sculptural seating focal point along the entry and cafeteria wall.

High wear upholstery fabric and tough plastic finish on frame bases will hold up to heavy usage. Further, upholstery covers are site replaceable, to repair damage or change to new décor in the future. Front, back and side base plates are also site replaceable.

Lacara Series chairs, tables and benches are connected with spring steel frame connectors, which may be bolted in place for further security. Standard leveler glides are stainless steel; hard rubber pad non-skid glides are available.

Above: Chair and corner sections create small conference and study areas along the hallway outside the Principal's Office.
