

Great Oaks Institute of Technology and Career Development Cincinnati, Ohio

The new Instructional Resource Center at Great Oaks provides businesses with exceptional facilities for conferences, training and presentations. The multi-function lobby greets visitors and serves receptions when tables are set up down the center.

The lobby features a custom curved desk and dividing wall of descending height and circle diameters.

Linn® Series chair segments enhance the sculptural lines, exactly fitting the inward and outward curves of the wall.

Linn sofas accent the entry wall with seating by the reception desk. Curvilinear forms in the wall, desk and lighting fixtures complete the architectural design details.
