

**Emergency Reception
Indian River Memorial Hospital
Vero Beach, Florida**

The building's circular design has the nurses' station in the center, with patient rooms and the reception area on the periphery.

The Emergency Services Pavilion combines state of the art medical facilities with details to help patients toward recovery sooner.

Laurel Series seating echoes the gentle curves of the circular building. A quiet sunlit room has a circle of seating for 12. Back to back chairs form a long arc of comfortable seating for 20 visitors in a central lobby area.

Laurel Jr. curved benches are safe and sturdy for kids to crawl up on in the play area for small children.

COM fabrics in soft green colors provide a cool, calming tone.
