

Carey Ridge Elementary School Westfield, Indiana

Carey Ridge Elementary School is a bright, contemporary environment. Their media center teaches children to use a computer to find information, but it's also a friendly library, with easy access to books and a special comfortable reading area.

The Petite Stuff? chair, sofa and floor pillow say "Welcome—enjoy this place!" to young students as they enter the library or pass by in the hallway.

Each piece has "children friendly" features: *Sturdy construction*, whose weight provides stability; *comfortable seating support*, even providing arm rests on the chair and sofa; *safety*, from cushioning on all sides to the special bottom closures, and *replaceable upholstery covers*, keeping them looking good now and in the future.
