

**Union Township Library
Children's Section**

How many ways can a child sit on a chair?
Any way they want! Linn® Jr's sturdy construction and weight provide stability; top quality foams yield comfortable seating. Special attention to children's safety results in a completely enclosed structure, with special safety closures on the bottom, and foam cushioning on all sides. Chair covers are replaceable on site—a feature that the Library took advantage of by purchasing extra covers.

Linn Jr. offers the flexibility to create children's spaces for all occasions. Models include a sofa, plus chairs, benches, and tables in rectangular and 30° segments.

Linn® Jr. chairs and tables welcome children to their own special part of Union Township Library. "Jungle Pets" upholstery on the furniture provides the theme for hand painted plants and animals on the walls surrounding the children's area. The chairs and tables encourage children to relax for awhile, looking through books to take out while parents select books for themselves. They also become the focus for Story Hour at the library.

Is the seating comfortable?
Do the children like the furniture?
Are they enjoying the Library?
You bet! The pictures say it all
