

Freestone Recreation Center Gilbert, Arizona

Linn® Series sculptural groups organize seating for 32 people, divided into 8 individual areas, providing spaces for families and friends to meet for activities. For other occasions, the seating may be rearranged individually or grouped to face together.

Above: Exciting contemporary architecture features a climbing wall in the reception area.

Below: Kiddy Korner program for children includes a story hour area with Linn® Jr. children's seating.

Non-skid glides for the tile floor and connectors keep the seating securely in place. Replaceable covers keep chairs looking good into the future.

Activities for the whole family include racquetball, fitness, gym, sauna and steam rooms besides the overhead running track and climbing walls shown in the lobby.
