

Atrium Reception Area Memorial Stadium, Indiana University

Memorial Stadium's east side lower level contains the office complex for Indiana University's Football Team. LS Series chairs provide comfortable seating areas for visitors, athletes, coaches and staff throughout the complex.

In other areas, club chairs and sofa sections provide individual seating or create small lounges for discussions and social groups.

The Atrium Reception Area is a multi-use lounge which welcomes visitors to the office complex. During the football season it is the center of activity, from recruits registering for field passes to players' meetings and social activities.

Off-season it hosts other university events, adding refreshment tables by the stone wall. Speakers and faculty assemble there when graduation is held in the stadium.

Crypton suede upholstery carries IU colors, outsmarting routine spills and stains. When they are ready for a change, new LS Series upholstery covers can be replaced on site. Solid walnut arm caps score rich finish details.
