

Randolph Macon College Sports Center

Comfort and flexibility were priorities for the student lounge in the new Sports Center. The lounge is bordered by a climbing wall at the far end, racquet ball courts, locker rooms, and refreshment facilities. The Linn® Series individual chairs and sofas with recessed casters meet all their needs. As shown, the chairs make small groups, but all of the chairs and sofas can be rearranged into larger groups or moved back to leave the space completely open for social events.

The Linn Series selected were 25" armless chairs and 82" sofas. A moisture barrier protects their seats under the upholstery. Chair and sofa covers are replaceable, for cleaning or new decor in the future. Tables were finished with rustic quartered oak laminate tops on the standard halfmoon end tables and the special 30" circular tables. Deep blue laminate was used on all plinth bases, coordinating with colors in the upholstery fabric.
