

## Ivy Tech State College Lafayette, Indiana

Ivy Hall, a state of art facility, is the new center of Ivy Tech campus. Area seating series by August fit a variety of spaces, from study to social lounges, keeping continuity of design throughout the building.

The Grand Hall is a multi-function space, the main reception area with places to wait, meet, or socialize. The **Laurel Series** provides a variety of seating spaces along the Hall, which extends the full width of the building. Chairs, sofas, and benches in colors matching architectural details create bright, comfortable spaces. Recessed weight sensitive casters make it easy to rearrange the furniture for social events, also held there.

Above, the "Cubby Corner", at the end of a second floor hallway. R&R® Series chairs, sofa, tables and floor pillows make a cozy quiet study space.

Far left, a floor plan of the Grand Hall, first floor. The Upper Hall (back page) features individual lounges

**The Upper Hall** repeats design motives visible through its atrium openings to the Grand Hall below, such as the central cross seating arcs, this time in the **Linn® Series**. Trios of benches and tables provide casual seating along the atrium hallway outside classrooms. For quiet study between classes Linn chair segments, sofas and benches enclose two lounges at each end of the Upper Hall.

**Replaceable Covers** All of the seating illustrated—Linn, Laurel and R&R Series, chairs, segments, sofas and benches have upholstery covers that are replaceable on site. Maintenance is easy and economical.

**Student Lounge**  
Linn® Series chair segments and benches yield over 40 comfortable seating places in small groupings. Their curves allow easy passage to outside doors, lockers and cafeteria space adjacent to the lounge.

**Security Connection**

Upper Hall and Student Lounge groupings are ganged with August's security base system.
