

Vincennes University
Vincennes, Indiana

Laurel Series provides the variety of designs desired for renovating several different areas in the college facilities upgrade program. The look of a hotel lobby rather than an ordinary entry was created with circular groups of chair segments in a bold floral pattern. Student lounges are designed like living rooms, using chair sections for single reading or groups around the TV, with flexibility for many activities. Sturdy construction and replaceable covers keep the chairs attractive through years of use.

Top left and above: Elizabeth Goare Hall
Outward chair segments 3341-10-PB fit seating in the center and on side walls, guiding the flow of students around the busy entry space.

Below left and right: Vigo Hall Study Lounge,
using 3302-PB chairs, 3307-PB left & 3308-PB right end sections and benches to create smaller spaces within a large room. Any piece can be used alone or combined with others for completely flexible sectional seating.
