The new library complex brings together facilities for meetings administration and a new public library for Jacksonville. From the entry's colorful art by local school children, you are drawn into bright friendly spaces.

**Laurel Series** chairs and benches curve a whimsical entry into the Children's Area, inviting parents and kids to enjoy selecting books or looking up information on kids size computers across the way.

Above: The "S" curve is composed of Laurel Series 3331-11 and 3341-11 chairs, with 3376-11 bench segments.

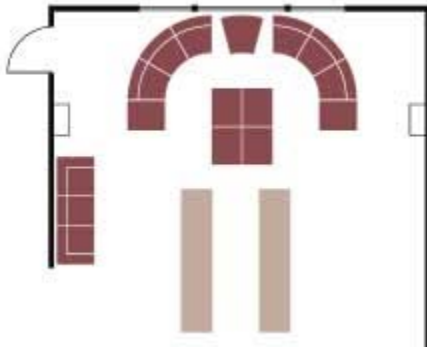

At left: A comfortable sofa made up of Laurel Series armless and end sections.

**Laurel Series** chair segments and benches form a lounge area at the back where teens are encouraged to read. Fun and practical - flexible for rearranging into new groups, easy to maintain with site replaceable covers, they're just right for teens and librarians.

Bright and cheerful even on a rainy day, the library makes everyone welcome.

Patterns "four Square" and "Dodgeball Too" moisture proof crypton finished fabrics from Designtex are decorative and practical for heavy usage.
