

Champaign County Library
 Urbana, Ohio

Converted from a former supermarket building, The Champaign County Library has bright, comfortable spaces for every department and age group. **August® Series** club chairs and sectional models create a special reading area for young adults just off the entry, across from the circulation desk.

The **August® Series** gives the Library flexibility to arrange the seating in a variety of plans. The oblique, a unique section of the August Series, is shown here with end sections to enclose the entry space. Club chairs invite teens to read awhile; floor pillows offer casual places to sit or can be combined with the other units
