

Greenbrook Elementary School Library Hanover Park, Illinois

The school library has just been transformed from scattered small rooms to a bright new space—a joy for both students and teachers. The **Linn® Series** seating creates a soft, friendly area to gather a group of students for discussion, or a place to linger with a book.

Shown here in one large group, the chairs and segments can be rearranged into smaller sections, or used individually, giving the librarians and teachers complete flexibility to fit their study plans.

Linn Series seating illustrated above has chair and arm covers which are replaceable on site, for cleaning or a future update to new décor.
