

Indiana University  
**AT&T Center For Excellence**  
 Bloomington, Indiana

The ground floor library of the AT&T Center For Excellence at Indiana University makes very efficient use of its space. The **Lacara Series** fits their needs, with added features.

Islands of eight outward 45° chairs yield seating for 16 and 24 people within very limited floor space. Fitting into the circulation flow with 8 ft. diameter circles, the seating provides colorful forms and comfortable seating.

See the **Lacara Series** for further information on its forms and features of site replaceable upholstery covers, laminate base plates and frame connectors.
